

**PARAGON INDUSTRIAL CONTROLS, INC.**  
*Machine Guarding and Safety System Integration*

## Stop-Time Testing Services

### **Paragon Industrial Controls Provides OSHA Required Stop-Time Testing Services.**

#### **OSHA 1910.217**

- Requires that Mechanical Power Presses must be checked on a regular basis and it is the responsibility of the employer to establish and follow a program of periodic and regular inspections of his power presses to ensure that all their parts, auxiliary equipment, and safeguards are in a safe operating condition and adjustment.
- Requires that Safeguarding Devices and Operator Controls be located at the proper Safe Distance as determined by the Safe Distance Formula:  
$$D_s(\text{the minimum safety distance}) = 63 \text{ inches/second} \times T_s(\text{the stopping time of the press})$$

For more Detail visit <http://osha.gov>

#### **— Our trained technicians will:**

- Perform the stop time test at your facility.
- Document your compliance to the above requirements.
- Make any simple adjustments needed to achieve compliance.
- Make system change recommendations when compliance cannot be achieved.

**Cost: \$250.00 per Machine** (\$500.00 Minimum Charge. Does not Include Travel Costs)
